

**The Hennig family farm home ca1960s (left) and a modern photo of it taken in 2013. Obvious modifications are new siding and removal of the entrance door at the back right. It also appears that fill dirt was added, perhaps to strengthen the foundation. Originally constructed by Alfred in 1928, the soundness of this home is a tribute to his carpentry skills!**

**Alfred (left) and Clarence (right) relaxing on the farm porch in their later years.**

**Household auction at the farm home after Alfred's passing in 1983. The farm acreage and the home and buildings were purchased by their their grandson, Leroy Framke.**
